NANYAO

CERAMICS

Coffee & everyday

Coffee cups, lidded mugs, infuser mugs
and everyday drinking vessels.

A SENSE OF PLACE

From Jingdezhen, for everyday rituals.

Nanyao brings together tea wares, tableware, everyday ceramics and art-inspired objects. Painted porcelain, translucent rice-grain decoration and expressive glazes offer distinct directions for an international collection.

253
finished product listings

142
base-form selections

8
custom project examples

For importers & distributors

Build a shortlist by use, form and decoration. Each product has a stable NY reference for enquiries; blank forms also retain their original form codes. Explore current designs, discuss a coordinated range or develop a project around your own brief.

Collection checked on 16 November 2026. Listing counts describe this edition, not stock, production capacity or certified performance. Current product pages and the agreed quotation confirm your selection.

A PRACTICAL BUYING GUIDE

From collection to shortlist.

01 Choose the product family

Use the sections for tea, tableware, coffee and everyday use, art, custom projects or blank forms.

02 Record the reference

Quote the NY code, the form code when shown, and your preferred decoration. Click a product image or link to open its English web page.

03 Specify the order

Tell us your intended quantity by reference, destination market, required date and packaging needs. State your target quotation currency.

04 Confirm the specification

Request a sample and an agreed specification covering measurements, components, decoration, packaging and any market-specific testing.

05 Agree commercial terms

Minimum quantities, prices, lead times, payment and delivery terms are confirmed in a written quotation for the chosen products.

No prices are printed. Catalogue dimensions and capacities are stated references; measurement basis, tolerances, final set contents and current supply are agreed for the order.

Build your shortlist.

Send the product references, quantities and destination market to hello@nanyao.art.

BEFORE QUOTATION

A clear brief. A precise response.

Product references	NY code / form code / decoration
Quantities	Units or sets per reference / trial order or repeat order
Market & destination	Country / intended use / shipping destination
Technical specification	Dimensions / capacity basis / components / finish
Packaging & labels	Individual packing / gift box / carton / barcode / language
Quality & documentation	Required testing / sample approval / inspection criteria
Commercial requirements	Quotation currency / delivery terms / target date

Single-piece custom commissions are welcome. Sampling: usually 3-7 days after design confirmation; complex designs or techniques may take longer. Quantities, prices, sample costs, testing and delivery terms are confirmed for the selected products in a written quotation.

FOR A CONFIDENT SELECTION

Confirm the details that matter.

Measurements & contents

Confirm the capacity basis and final component list. Nominal inch sizes are product designations. Where older photograph labels differ from the written specifications, use the stated catalogue value and request current sample details.

Surface & colour

Photography and printed colour are references. Assess glaze, decoration and any acceptable variation on an approved physical sample.

Care instructions

Request the care guidance for the selected reference. Do not assume microwave, dishwasher, oven or freezer suitability from appearance. Gold decoration and special finishes require specific confirmation.

Market requirements

Tell Nanyao the destination market and intended use. Agree the required food-contact documentation, test scope and any other applicable product requirements for the exact items.

Packing & delivery

Agree individual protection, set arrangement, outer-carton details, marking and the delivery plan in the quotation and packing specification.
